To Access the Dissertation Abstracts International Database:

1. On the Shields Library web page, point at Catalogs & Databases and select Databases A-Z.

2. Search for “Dissertation Abstracts.”

3. Click on the link for Dissertation Abstracts International/Dissertations & Theses.
   
   Note: If you are connecting from off campus, click on the VPN button instead, and log in using your Kerberos ID.

   **Dissertation Abstracts International / Dissertations & Theses [via ProQuest]**

   Online access to citations and abstracts for every title in the UMI Dissertation Abstracts database; since 1997, provides full-text access to dissertations. Access is free to UC Campus dissertations.

   Coverage: 1861-present
To Find a Thesis or Dissertation:

1. Click the Advanced tab, then click the link for More Search Options.

2. Use the settings in the upper part of the screen to filter for time and full text:
   A. The “Date range” drop-down list sets how far back the search will go.
   B. The “Limit results to... Full text documents only” checkbox restricts the search to documents available online.

3. Use the settings in the lower part of the screen to filter by advisor, school, subject, and genre:
   C. For “Advisor,” enter the name of the advisor of record for the thesis or dissertation.
   D. For “School name/code,” enter University of California Davis.
   E. For “Subject,” enter the subject area you want to search within (e.g. Aerospace engineering, Nutrition, Toxicology, Women’s studies, etc.).

   If you don’t get any results, click the “Look up subjects” link to make sure you are using a subject name that the database recognizes.
   F. To restrict the search to either Theses or Dissertations, choose the appropriate category from the “Manuscript type” drop-down list.

4. Click Search.
